Get involved with the things that matter to you most - Our Commissioning Intentions 2018/19

We want to make sure that you have every opportunity to get involved with your local healthcare plans. Each year, the CCG sets out areas they will work on in order to continue to improve local healthcare services. We want to know which areas you are most interested in so that we can make sure that you can be involved every step of the way.

We will be collecting feedback until 9th February 2018. You can do this by completing our commissioning intentions survey by clicking [here](#), emailing us at engagement@sthelensccg.nhs.uk or by calling us on 01744 627596

[The CCG priority areas](#)

[Support us to increase our community membership](#)

Help us to reach out to as many people in the local community as possible and encourage your friends, family and colleagues to become a member of NHS St Helens CCG too.

Being member of the CCG means you will always be up to date on the latest developments in health and social care in your area and are able to hear about the engagement, consultation and events happening which affect your local health services.

[People can register to become a member by registering online](#)

Tell us your story

We are always looking at ways of improving healthcare services. A big part of how we can do that is to hear your experiences of health care. All experiences and stories, both positive and negative are good for us to know about and you can share these with us in a number of ways including;

- [Complete patient experience form here](#)
- Contact us directly on 01744 627 596

The next ENGAGE newsletter will be brought to you in February 2018
